

# PROVINCIAL PARENT/CAREGIVER PEER AND COMMUNITY SUPPORT SERVICES FUNDING OPPORTUNITY

Strengthening local, parent/caregiver-driven peer and community supports throughout British Columbia

Trans Care BC is pleased to announce a funding opportunity for parent/caregiver peer and community support providers and community members. This funding (up to \$8,000) is just one step toward our long-term goal of building more regional and provincial supports for gender creative, transgender and Two-Spirit youth and children and their families.

## WHAT DO WE HOPE TO ACHIEVE THROUGH THE FUNDING?

- Provide resources to current peer and community support services to help continue work being done by and for parents/caregivers of gender creative, transgender and Two-Spirit youth and children.
- Support new and innovative parent/caregiver peer and community support services, especially in rural and remote communities, which are:
  - ✓ driven by parents/caregivers
  - ✓ guided by the needs of gender creative, transgender and Two-Spirit youth and children

## WHAT ARE THIS YEAR'S PRIORITY FUNDING AREAS?

- Supporting the development of new parent/caregiver peer and community support services, especially in rural and remote communities
- Creating and strengthening connections between parent/caregiver peer and community supports and health and wellbeing services, including Trans Care BC's Care Coordination Team
- Strengthening the resources and skills within already existing parent/caregiver peer and community support services across the province
